

Community Health Update - December 23, 2020

Dear Residents:

Convalescent & Rehabilitation Center Update

Since the C&R entered "Outbreak Status" last week, we have not had any additional resident or staff cases of COVID-19. The C&R continues to conduct weekly testing for all staff and residents. We have received approximately two thirds of the results from this week's testing (conducted on Monday, December 21st) - and so far all results are negative. We expect to receive the remainder of the test results by the end of this week. Weekly testing will continue until the Outbreak Status ends and the county positivity rate remains above 5%.

A few more key updates:

- The staff member who tested positive (as reported in the Community Health Update from December 16th) is doing well and will return to work when it is safe to do so.
- As of today, the C&R can accept new admissions again. We are relieved the short pause in admissions did not prevent any Panorama residents from receiving C&R services.
- C&R staff and residents will have an opportunity to receive the vaccine on January 12th and 13th.

COVID-19 Active Case Tracker:

- **1** staff case
- **0** resident cases in the Convalescent & Rehabilitation Center
- **0** resident cases in Assisted Living
- **0** resident cases in Independent Living

Vaccine Information Available on Kya

We have created a web page for vaccine information pertinent to Panorama residents. You can access the page by visiting the Coronavirus section on Kya and clicking "Vaccine Information" on the left side of the page.
