

## Community Health Update - July 29, 2021

### C&R RESIDENT TESTS POSITIVE FOR COVID-19

Today the Convalescent & Rehabilitation Center received a positive test result for a sub-acute resident through monthly surveillance testing for COVID-19. This individual is currently asymptomatic and was discharged to their home (which is not on Panorama's campus) earlier today. Because they are no longer in our C&R and they are not a Panorama resident, we are not including the case in our case tracker.

At this time we have received 243 out of 275 test results, with no additional positives. We expect to receive the remainder in the next 24 hours, and will inform the community if there are additional positive results.

Per the Department of Health, the C&R will be in a "monitoring period." Admissions, activities and indoor visitation are on hold. Communal dining can continue following the current precautions. C&R residents and staff will be tested again next week.

#### *COVID-19 Active Case Tracker:*

- 1 staff case
- 0 resident cases in the Convalescent & Rehabilitation Center
- 0 resident cases in Assisted Living
- 0 resident cases in Independent Living
